

AI CONTRACT CLAUSE CARD

The five AI demands for your contract. Each one is one sentence. Together they are the floor, not the ceiling.

1

CONSENT

No training AI on your work, and no replicating your style, without your written consent.

2

COMPENSATION

Separate, additional pay whenever AI is trained on your work or used to extend it.

3

CREDIT

A written human crediting policy for AI-assisted output. Your name stays on your work.

4

DISCLOSURE

The employer must tell you when material handed to you is AI-generated. No laundering machine output through your hands.

5

NO FORCED USE

Using AI tools cannot be a condition of your job, and AI cannot be used to justify cutting your rate.

Every one of these has already been won in a US union contract (WGA 2026, SAG-AFTRA 2025, ZeniMax-CWA 2025).
